Senior Frontend Engineer | React, Next, TypeScript | 8+ YOE

Frontend Engineer with 8+ years of experience building scalable, maintainable web applications for global clients. Specializes in React, Next.js, Angular, and TypeScript, with a focus on performance, accessibility, and design consistency. Leads frontend teams to deliver responsive, user-friendly interfaces in agile, remote-first environments. Experienced in collaborating across time zones and aligning frontend architecture with product and team growth through component-driven development and modern practices.

WORK EXPERIENCE

CEFALO • Nov 2022 - Present
SENIOR SOFTWARE ENGINEER

- Architected and led frontend development of a complex form-builder platform used by Norwegian public sector clients—reduced form rendering latency by 40%.
- Introduced scalable Redux architecture and React best practices, reducing tech debt and cutting new feature onboarding time by 50%.
- Acted as technical advisor and consultant, guiding frontend decisions across multiple teams and ensuring code quality.
- Facilitated effective collaboration across distributed teams, improving alignment between frontend, backend, and UI/UX.

SELISE • Sep 2020 - Oct 2022
SOFTWARE ENGINEER

- Developed a customer-facing insurance platform for a Swiss enterprise using Angular, improving user retention and conversion by 20%.
- Created and maintained a component library to ensure UI consistency and simplify development across multiple modules.
- Refactored frontend–backend communication layer, enhancing API performance and reducing data-fetching issues by 35%.
- Consistently delivered high-quality code under tight deadlines while working in a fast-paced Agile environment.

KINSHIP AI • Dec 2017 - Aug 2020
FRONTEND ENGINEER

- Built responsive, pixel-perfect UI with React and ensured WCAG accessibility compliance and cross-device compatibility.
- Streamlined UI state management with Redux, leading to a 25% decrease in frontend bugs and smoother user interactions.
- Collaborated with designers and backend developers to deliver major new features on time while also resolving key UX issues that improved customer satisfaction.

SPONDON • Sep 2016 - Nov 2017
FRONTEND WEB DEVELOPER

- Delivered 15+ responsive HTML5 templates (education, SaaS, and hospitality)—100% approval rate on ThemeForest.
- Applied modern best practices (W3C standards, semantic HTML) to ensure cross-browser compatibility and SEO readiness.
- Transformed PSD designs into fully responsive interfaces using HTML5, CSS3, Bootstrap, and jQuery.

EDUCATION

Masters Of Science in Statistics • University Of Dhaka • Jan 2013 - Jan 2014
